Description and Remarks

scs.of the proposed Soviet rocket to the moon- apparently we have scenes of the control center and scenes of the operations--possibly some animation material here,too--again was not too clear as we had only info sheets not scene listing--automatic instrumen record the activities of the rocket and its refueling rocket,sent aloft when needed--possibly shots of the scientist who developed the system, Yuri Khlebtsevich,who says that someday we will watch activity on the moon thru television scr[illegible]
